This 3 Bedroom 2 bath Contemporary end unit Town House with loft has two story vaulted ceilings, maple hardwood floors and track lighting which enhance the spacious feel to this home.

If you were to put this property in downtown it would easily fetch 1700.00 per month. Once used as an artist studio, this end unit town home has clean lines and an awesome layout. The property has a nice private deck and great back yard with a one car detached garage.

Close to downtown St. Paul but without the hustle and bustle. Como Park and neighborhood green space is not too far away. Google map the address and you will find it is close to shopping entertainment and everything that a cosmopolitan would enjoy.
